

## 8. Other road traffic

### 8.1 Public Transport (22)

1. At a tramstop, passengers are getting on and off a tram onto the roadway. What do you do if you want to drive past on the right?
  - a) Drive cautiously at walking speed past if this is possible without endangering or inconveniencing passengers
  - b) Wait if passengers can be endangered or inconvenienced
  - c) ~~Give a clear warning signal and proceed~~
2. What do you do when a bus has stopped at a bus stop with its hazard warning lights switched on?
  - a) Drive past at a sufficient distance in order to exclude endangering pedestrians
  - b) Drive past at walking speed only and, if necessary, stop
  - c) Wait if passengers could be inconvenienced
3. Which vehicle must you allow to set off from marked bus stops?
  - a) Regular buses
  - b) School buses
  - c) ~~Taxis~~
4. A regular bus in the oncoming traffic has stopped at a bus stop on the same roadway with hazard warning lights switched on. What do you do?
  - a) Slow down to walking speed
  - b) ~~Only proceed at walking speed if passengers want to cross the roadway~~
  - c) ~~Proceed at the same speed since the bus has stopped on the other side of the roadway~~
5. You are approaching a regular bus stop, which has stopped in the opposite direction at a bus stop on your roadway and its hazard warning lights are switched on. What must you expect?
  - a) Passengers will cross the roadway in order to catch the bus
  - b) Passengers leaving the bus will suddenly cross the roadway
  - c) ~~Passengers will cross the roadway only after the hazard warning lights of the bus are switched off~~
6. You would like to drive past a local transport bus, which has come to a stop at a bus stop. What must you be aware of? I have to \_\_\_\_\_
  - a) Drive past carefully
  - b) Drive past maintaining sufficient space to the side
  - c) Watch out for oncoming traffic
7. You are approaching a local transport bus, which has come to a stop at a bus stop. What must you watch out for when driving past it?
  - a) My speed
  - b) For pedestrians on the road
  - c) That there is sufficient space to the side

8. **PHOTO:** The tram has just become stationary at the stop. What is the right course of action?

Passengers boarding or alighting

- a) may not be impeded
- b) may not be endangered
- c) ~~may be warned using the horn~~

9. **PHOTO:** Which statements are correct? (Brake light on)

- a) You may pass on the right-hand side at walking speed provided that passengers are not obstructed and you are sure no-one is endangered
- ~~b) If no-one is obstructed or endangered, you may pass on the right-hand side at a speed faster than walking speed~~
- ~~c) Passengers must allow moving traffic to pass before boarding~~

10. **PHOTO:** What must you heed in this situation? (Hazard warning lights on)

**You may**

- a) pass the stationary bus at walking speed provided you are sure that passengers are not endangered
- b) not overtake the bus while it is still moving
- ~~c) overtake the bus while it is still moving~~

11. **PHOTO:** What must you be aware of?

- a) People crossing the road from left to right to get to the bus
- b) Pedestrians crossing the road in front of the bus
- ~~c) The bus will reverse suddenly~~

12. **PHOTO:** What must you heed in this situation? (Hazard warning lights on)

**You may**

- a) pass at walking speed only
- b) pass only if you are sure that passengers are not endangered
- ~~c) not pass under any circumstances~~

13. **PHOTO:** Which statements are correct in this situation? (Hazard warning lights off)

- a) Cars coming from the opposite direction may pass the bus provided that they do so with care
- b) You may pass the bus provided that you do so with care
- c) ~~As you are coming from the opposite direction, you do not need to worry about the bus~~

14. **PHOTO:** Which statements are correct in this situation? (Hazard warning lights on)

- a) The bus may be passed in either lane but no faster than at walking speed
- b) Vehicles in both lanes must stop if passengers would otherwise be endangered
- c) ~~The vehicles in the left lane may pass the bus without paying any special attention~~

15. **PHOTO:** What must you be prepared for in this situation? That the \_\_\_\_\_

- a) braking distance will be longer
- b) bus moves off immediately
- c) ~~bus driver allows you to pass~~

16. **PHOTO:** What actions should you anticipate at such stops?

- a) Pedestrians will step off the tram-stop island unheedingly
- b) Pedestrians will run across the road to the tram-stop island
- c) ~~Pedestrians will wait until the road is clear~~

17. **VARIANT PHOTO:** In this situation, which vehicles may drive past, at walking speed only, while ensuring there is no danger to any passengers? (Warning lights on).

All vehicles that \_\_\_\_\_

- a) Are oncoming
- b) Are travelling in the same direction

18. **VIDEO:** What is the right course of action now? I \_\_\_\_\_

- a) do not overtake the tram
- b) ~~overtake the tram on the left~~
- c) ~~overtake the tram on the right~~

19. **VIDEO:** In this situation, do you have to proceed slowly and be ready to brake?

- a) Yes, because passengers could cross the road from in front of the bus
- b) Yes, because pedestrians not alighting from the bus could cross the road
- c) ~~Yes, because the bus will begin moving immediately~~

20. **VIDEO:** What do you have to be aware of in this situation?

- a) I look out for people who could walk onto the road
- b) I may only pass the bus at walking speed
- c) I may not drive past the bus

21. **VIDEO:** Why do you have to brake?

- a) Because someone is walking onto the road
- b) Because the truck is switching into my lane
- c) Because passengers are exiting the tram

22. **VIDEO:** What is the right course of action in this situation?

- a) I remain behind the tram
- b) I overtake the tram on the left
- c) I drive past the tram on the right side

## 8.2 Motorcycles (4)

1. Why are you particularly at risk, if you are riding a two-wheeler?

- a) Because I can be easily overlooked
- b) Because my speed can be underestimated
- c) Because I am at greater risk of injury in the event of an accident

2. You are driving into a right-hand bend. A motorcyclist approaches you at high speed. What risks should you take into account? The motorcyclist \_\_\_\_\_

- a) Will cut the corner and intrude into my lane
- b) Will intrude into my lane because of the heavily tilted position
- c) ~~Will brake in good time and avoid intruding into my lane~~

3. While you are in a traffic jam, looking in your rear-view mirror you see a motorcyclist „snaking“ past the stationary line of vehicles. What should you do?

- a) I let him drive past
- b) I sound my horn and note his registration
- c) ~~I take steps to ensure that he too must come to a stop~~

4. VIDEO: Why are you required to brake now?

- a) Because of the motorbike
- b) ~~Because of the cyclist~~
- c) ~~Because of the van~~
