

4.2 Road Usage (2)

1. You are driving on a road outside a built-up area with three lanes marked in each direction. Individual slower vehicles are travelling well-spaced out in the right-hand lane. Which lane may you use continuously?

- a) The middle lane
- b) ~~The left-hand lane~~

2. Which motor vehicles may freely choose their lane inside built-up areas?

All motor vehicles with a permissible total mass of upto 3.5 t

4.3 Motorways and highways Part 1 (20)

1. What must you aware of when using navigation systems and road maps?

- a) Even up-to-date contents may differ from reality
- b) The contents may become outdated just a short time after purchase
- c) ~~All navigation systems can update themselves automatically~~

2. When can strong side wind be particularly dangerous?

- a) When overtaking trucks
- b) When driving across bridges
- c) When driving past firebreaks in forests

3. You have been driving at high speed for some time. What effects can this have?

- a) You lose your feel for speed
- b) Your powers of concentration diminish
- c) ~~The feel for the right speed on bends grows~~

4. What can result from driving for a long time at high speed?

- a) You lose your feel for speed
- b) You drive too close to vehicles in front
- c) ~~Your reactions improve~~

5. Where are U-turns prohibited?

- a) On autobahns
- b) On clearways for motor vehicles only
- c) ~~On farm or forest tracks~~

6. What is the recommended speed that applies to cars and motorcycles on autobahns? 130 km/h

7. What is the maximum speed a truck with permissible total mass of 3,0 t and trailer may be driven on autobahns?
80 km/h

8. What applies on clearways for motor vehicles only?

- a) No U-turns
- b) Join the clearway only at crossroads and junctions
- c) ~~In darkness, you may drive faster than the range of visibility allowed by dipped headlights~~

9. What top speed must be entered in vehicle documents to allow the vehicle's use on autobahns? More than 60 km/h

10. What applies on autobahns?

- a) No reversing
- b) No stopping on the roadway and hard shoulder
- c) ~~In darkness, under no circumstances drive faster than the range of visibility allowed by dipped headlights~~

11. What must you be aware of when joining the motorway?

- a) The through-driving traffic has priority
- b) On the merging lane, I may drive faster than the through-driving traffic
- c) ~~The through-driving traffic on the right-hand lane must allow incoming traffic to merge~~

12. You are driving in a merging lane. What should you do?

- a) Accelerate appropriately, do not pull up if possible, merge while observing the right of way
- b) Drive past to the right of slower-moving vehicles driving on the through-lane and merge in before them
- c) ~~Always drive to the end of the merging lane, pull up there and then enter lane~~

13. What vehicles are subject to the recommended speed on motorways? All _____

- a) Cars
- b) Motorbikes
- c) ~~Trucks with a gross vehicle weight rating in excess of 3,5 t~~

14. On what roads does the recommended speed of 130 km/h apply?

- a) Motorways
- b) On vehicle roadways not inside a built-up area, with at least two marked lanes for each direction
- c) On vehicle roadways not inside a built-up area, with separate carriageways for each direction

15. Why should you have the traffic information switched on, when driving on the motorway? Because the traffic info

- a) Provides reports about traffic jams
- b) Gives warnings about motorists heading in the wrong direction
- c) ~~Is a prescribed requirement for travelling on the motorway~~

16. **PHOTO:** What is correct in this situation?

- a) I have to reduce my speed
- b) The truck has right of way
- c) ~~The truck has to wait~~

17. **PHOTO:** You are driving at least 20 km/h faster than the green truck. What should you do?

- a) I move onto the motorway ahead of the green truck
- b) I brake and move onto the motorway behind the green truck
- c) I stop at the end of the merging lane, and move onto the motorway behind the blue truck

18. **PHOTO:** A strong side wind is blowing from right. When are you particularly exposed to danger when overtaking?

- a) When you enter the slipstream of the truck
- b) When you leave the slipstream of the truck
- c) When you change lane after overtaking

19. **VARIANT PHOTO:** What should you do now?

- a) I accelerate and merge in front of the truck / bus
- b) I slow down and merge after the white vehicle
- c) I slow down and merge between the yellow car and the bus

20. **VARIANT VIDEO** - What is the right course of action now?

- a) I notify the police
- b) I drive over to the right-side as far as possible
- c) I warn the driver by sounding my horn and flashing my lights
